Ward 8 Visiting Times

Afternoon 2.00pm - 4.30pm
Evenings 6.30pm - 8.00pm

Patient Information

- Only 3 visitors are allowed at the patients bedside at any time.
- You can telephone the ward for information on 0121 627 2758/2757 but only limited details can be given over the phone.

Each bed has a bedside communication and entertainment system. The telephone system enables patients to make and receive personal, national and international calls from their bedside.

Cards to access the system may be purchased from the vending machines located on each floor level.

- If there are lots of relatives and visitors, please try and co-ordinate telephone calls with a member of the family.
- In the event of a fire alarm, please remain by the bedside of the patient you are visiting. The nursing staff will inform you if we need to evacuate the area. Stay calm and do not use the lift.

- Many patients are recovering from surgery, so please do not make undue noise on the ward - the patients would appreciate it.
- If small children are visiting, please restrain them from running around as they may injure themselves.
